GREAT STRIDES are now being made in improving fruit varieties, their cultural methods, and marketing details. For a commercial orchard planting should not be delayed. It is wise to select trees and roots adapted to your local conditions. To insure the most regular income, it is best to grow about three kinds of fruits. They have their ups and downs, but all the leading sorts have shown good average profits over a term of years, in spite of pessimistic comments from time to time. Frequently California fruits have brought fabulous returns to the grower. There is no better business than fruit growing: "LET'S GO!"

Fruit Tree Price List
1923-24

Descriptive Catalogue Mailed on Request

MORGAN HILL, CALIFORNIA
To Our Customers

OFFICE. Our office on the San Francisco-Los Angeles Highway is for the convenience of our customers, and prospective customers. Drop in and let’s talk things over.

TERMS. We allow 8% discount for cash in full with order before November 1st, or 5% for cash in full with order from November 1st to January 1st. 20% deposit required with orders when placed. Unless previous arrangements have been made for terms, stock will be shipped C. O. D.

SUBSTITUTIONS. Always state, in a mixed order, if substitutions may be made or not. If “no substitution” is written on order, such instructions will be carefully heeded.

RESPONSIBILITY. We cannot be held liable for any damage that may result from delays or damage in transportation.

GUARANTY. While we exercise the greatest care to have all our stock true to label, and hold ourselves in readiness, on proper proof, to replace all trees, etc., that may prove untrue to label, free of charge, or refund the amount paid, it is mutually understood and agreed to between the purchaser and ourselves that our guarantee of genuineness shall in no case make us liable for any sum greater than that originally received for said trees, etc., that may prove untrue. All orders and contracts taken depend on crop failure, floods, fire, or accident beyond our control.

COMPLAINTS. All claims for shortage, or any other possible mistakes, must be made within ten days after receipt of stock or they will not be allowed. Carefully examine trees or plants upon arrival. If anything is wrong, notify us at once; adjustments, if any are needed, are made at this time.

PACKING. This is done in the best manner, and charges made simply to cover cost of material used. No charge for cartage to railroad. The charge per bale would amount to about 25 cents to $3.00, according to size; and for ornamental stock, from 25 cents to $1.50 per box; small plants in flats, 15 cents each flat.

Please note—We sell from:

Assorted Varieties $1.50 $12.00
THE FRUIT TREES we offer are grown by ourselves and at Betabel again.

They give universal satisfaction and are shipped into every fruit growing section of California, as well as to other States and Foreign Countries.

Last season the complaints we received from our stock upon arrival on the planter’s ground, amounted to less than 1/10 of 1%

And these we adjusted. You take no chances in buying from us.

SPECIAL OFFER

We have a limited quantity of carefully selected Fruit Tree stock in mail order sizes, pruned ready for planting. We will send these prepaid by Parcel Post, or otherwise, to any point in California, if order is for 5 or more trees, of the smaller sizes, (1/4 inch to 3/8 inch and 3/8 inch to 1/2 inch, or Walnuts of the 1 to 2 feet or 2 to 3 feet size) figured at the each rate; provided remittance accompanies order.
